Milan, July 29. N.S.

THE Prince of *Vaudemont*, our Governor, returned hither last week from *Cosmo*, whither he went to meet the Duke of *Savoy* as he passed through that Place in his way to St. *Maurice*. Mr *Hill*, Envoy Extraordinary from His Majesty of *Great-Britain* to the Duke of *Savoy*, arrived at *Turin* the 22d Instant; but his Royal Highness not being there, Mr. *Hill* came hither to wait upon the Prince of *Vaudemont*, by whom he was received with extraordinary Marks of Kindness and Esteem, and he intends in few days to return to *Turin*. An Order has been published here, Requiring all Military Officers to repair to their respective Regiments before the 8th of the next Month, when there will be a General Review of the Troops in the Service of this State.

Warsaw, July 24. The Diet continue to meet every day, and proceed with such Temper, as gives reason to hope for a good Conclusion of this Meeting. An Account has been laid before them of the Arrears due to the Forces of the Crown, which amount to a very great Sum. They are considering likewise of the Arrears due to the Army of *Lithuania*, and of the Demand that has been made by the Great General of that Dutchy, that the Money which he has advanced for the Subsistence of these Forces may be repaid him. It was moved some days ago in the Diet, That there being divers weighty Affairs before them which cannot possibly be dispatched in the six weeks during which the Diet is to sit according to the Constitution of this Kingdom and no longer, this Term might be prolonged, but it was rejected. As to the Affair of *Elbing*, it's left wholly to the Senate, who meet every day to consider thereof, and seem very much enclined to accommodate this Difference with the Elector of *Brandenburgh*, provided the same can be done upon reasonable Terms, and in such a manner as is consistent with the Honour of this Crown. The Bishop of *Ruab* has resigned his Office of Great Chancellor of *Poland*. General *Steynau* is made Marshal-de-Camp General of all the King's *German* Forces. The Marquis *de la Foreſt* is daily expected here from *Germany*, where he has by the King's Orders raised a Company of Gentlemen who have been all Officers, and are to attend near the King's Person as his Guards, and a sufficient Pay will be allowed, to enable them to keep a Servant and two Horses each. It continues to be said, that the King intends, as soon as the Diet is ended, to go to *Saxony*, and 'tis believed that when he returns, the Queen will come with him. Our Letters from *Lemberg* give an Account, that the Crown-General had received Advice from the Bassa of *Caminiec*, that Directions were sent him from the Port forthwith to evacuate *Caminiec*, and that he was preparing every thing in order to obey the same, upon which the General had deferred his coming hither to assist at the Diet, intending first to take possession of that Place.

Vienna, July 28. The Count of *Ottingen* prepares with all diligence for his departure on his Embassy to *Turkey*, having received notice that *Ibrahim Bassa*, the *Turkish* Ambassador, took his Leave on the 26th of the last Month of the *English* and *Dutch* Ambassadors at *Andrinople*, and intended to begin his Journey hither in few days. The Count of *Berlips*, Envoy from *Spain*, had Audience last *Friday* of the King and Queen of the *Romans*, whom he Complimented in the Name of the King his Master on their Marriage. Adjutant-General *le Jay*, Envoy from the King of *Poland*, had Audience the same day of the Emperor and Empress, and on *Sunday* last returned towards *Warsaw*. The Emperor has given a great Tract of Land lying along the *Danube* between *Buda* and *Esseck*, which lay waste during the War, to divers Persons of Quality, on condition they will take care that the same be Peopled and Manured. Our last Advices from *Hungary* say, the Imperial and *Turkish* Commissioners in that Kingdom had wholly settled the Limits of *Croatia*, having adjusted the Differences between them about the Possession of *Novi*, and some other Places on that Frontier, and were now going to regulate the Boundaries of *Transilvania*. These Advices add, that on the 20th Instant a free Market was open'd at *Esseck*, whither a great number of *Turkish* Traders came to sell their Merchandize, and that there is now a very friendly Correspondence between the *Germans* and the *Turks* on that Frontier.

Francfort, August 5. A Difference happened lately between the Landgrave of *Hesse-Darmstad* and the Count of *Weylbourg*, concerning certain Arrears of Taxes due by the Inhabitants of the Baylywick of *Huttemberg*, which these two Princes possess in Common; The Landgrave had remitted that part which was to be paid to him, and the Counts of *Weylbourg*'s Officers coming to demand what was due to their Master, the Inhabitants refused to pay it, whereupon some Troops were sent to oblige them to a Compliance; On the other side the Landgrave sent some of his Forces to the Assistance of the Inhabitants of *Huttemberg*, who forced the Troops of *Weylbourg* to retire with some loss. The Count afterwards obtained a Mandate of the Imperial Chamber at *Wetzelar* to justifie his Pretension, and demanded the Assistance of the Elector Palatine as Director of the Circle of the *Upper Rhine*; Accordingly a Regiment of Horse and another of Dragoons of his Electoral Highness's Forces being ordered to join the Count's Troops, they came to this place last Sunday on their march to *Wetzelaria*, and desired the Liberty of passing over our Bridge on the *Meyn*; but the Magistrates of this City resolving not to intermeddle in this Dispute, refused it, so that the Palatine Regiments were obliged to wade through the River near this place, and two Regiments of Foot of the Elector's Forces who came hither yesterday marching the same way, and were in like manner refused passage here, went over the *Meyn* in Boats; 'Twas said, that the Landgrave of *Hesse-Darmstad* had desired the Assistance of the Landgrave of *Hesse-Cassel*, and that he had ordered his Troops to march accordingly; but we have received Advice this day, that the Troops on both sides are countermanded, upon the prospect there is that this Matter will be amicably composed.

Hamburgh, August 7. On the 3d Instant some *Swedish* Troops came and secured a Passage over the River *Trave*, between *Lubeck* and *Travemunde*; And on the 4th a Regiment of 1200 *Swedes*, commanded by Lieutenant General *Hempel*, marched from *Wismar*, and having passed the said River, continued their march by the way of *Kiel* towards *Tonningen*, towards which place the Troops belonging to the Duke of *Holstein-Gottorp* are also moving, and it's said, they are shortly to be joined by a stronger Body of *Swedish* Troops from *Pomerania*, and that their
